

Hi my name is Kira,

If you've used the first set of Orion Star Grids (in spheres), here is the second one (in squares). They are **Resonance Grids** that raise our vibrations exponentially as they attune us to the frequency of each inner grid. They come to you from the "Lords of Light " the **Elohim**, and are here to aid our transmutations and to expedite both **personal** and **planetary transformation**. Use as guided but also on the 'Hara' (your power centre, below the navel and slightly to your right). They are personally attuned to your vibration. Go to "<https://frequencyandlighthealing.com>" for more information.

I. DIVINE FLOW GRID

Increasing and expanding our awareness, it connects us ultimately with our state of Pure Conscious Awareness. At this level of Being, things flow into our lives effortlessly and where problems and challenges occur, the solutions to them appear instantly. This grid moves us out of situations where we feel stuck. Our awareness becomes more objective stimulating the flow of Divine Energy and Harmony into these situations.

II. DIVINE EGO SELF GRID

This grid unites the Divine and Human Ego Selves, giving us conscious awareness as a Divine Being of Light.

III. RAINBOW GRID

Opens us to Metatronic frequencies. It aids in the linking up of the sacred Pineal and Pituitary glands to form the " Arc of the Covenant "; which is an arc of rainbow rays over the top of the head. This culminates in the formation of the ' Waves of Metatron ' (at which point we shift from the human to the Divine).

IV. SELF EMPOWERMENT GRID

Unlocks our potential using the keys of the Heart, which were embedded within us long ago, awaiting the time when we would be sufficiently evolved to be able to wisely and successfully use them. **That time is Now.**

V. RENEWAL GRID

A Master Creator, this grid uses the Universal forces of Renewal to create beneficial changes, both within and without. It's positive nurturing energy impacts harmoniously upon our everyday life experiences.

VI. FOUNTAIN OF LIFE GRID

Links us with the Inner Fountain, to create a continuous flow of energy from our Inner Divine Core to all levels of our Being, enabling us to experience Peace, Love, Joy (all the attributes of Spirit, ultimately resulting in Bliss Consciousness. Place on Heart and affirm Peace or Love etc for a few minutes, then on Solar Plexus.

VII. TRANSFORMATION GRID

Clears unwanted energy debris from worn out thought/ emotional forms that no longer serve our Highest Good. It can be used to remove the causes of ill-health, as it goes straight to the root of the problem, refusing to allow us to hold onto or store any negativity. Try placing on left wrist pulse point whilst affirming something positive such as "All is Well". Then place 2-3 inches further up the arm moving to your elbow edge (Heart meridian) and again affirm the positive, Next move to your Heart and do the same. **Very powerful !**

VIII. LIGHT LINES GRID

Steps up our Light Quotient and increases our personal frequency. It does this by acting as an intermediary, a kind of spiritual transformer, that conducts high frequency light into our energy fields.

IX. WISDOM GRID

Accesses higher levels of Wisdom and the Knowledge of God, integrating this knowledge to enable us to live in Harmony with the Divine Laws of Being.

X. COMPASSION GRID

Fosters compassion for all life forms giving us softness and quiescence. It increases the ' pink flame ' of the three fold flame of the ' Divine Heart ', the flame of Unconditional Love.

XI. LIGHT ABSORPTION GRID

Opens a channel for all Light frequencies to be received by us, Light Languages which form our Being, Light Wisdom which forms our Consciousness and Light Technology that creates our templates and holographic image.

XII. EXPANDED DIVINE HEART GRID

This grid brings about a fuller opening of the Heart and Higher Heart chakras. It puts us into the space where only unconditional love can be experienced, linking us with the Heart of All Life.

XIII. FLUENCY GRID

The programming of this grid provides for the understanding of, and proficiency in, the subtle nuances of Light/Multidimensional languages, helping us to bring through the higher consciousness of those who wish to serve us, such as the Ascended Realms and Higher-Dimensional Collectives.

XIV. FUNCTIONALITY GRID

Helping us to switch effortlessly between different dimensions of Time and Space, this grid helps us to move between the different levels of Consciousness of all our vehicles (bodies), enabling a consciousness switch at Will.

XV. DENIAL GRID

It cancels out errors in our thought/ emotional life, which are not in accord with the laws of Divine and Universal Harmony, leaving our energy field in a positive state . This grid separates us from the energies (frequencies) that drag us down and would otherwise hold us in a state of separation from our' Divine Self '.

XVI. COMPLIANCE GRID

The purpose of this grid is to merge both ascending and descending energies within all life forms. It is used as a 'shift key' to move us into a different dimensional level, grounding us in and at each respective level.

XVII. POLARITY GRID

Helping us to keep pace with 'Gaia's' magnetic changes, this grid also eases the impact upon us of the continual bombardment of magnetic particles from the " Galactic Centre ", which are being sent to transform us. It helps us to create (in similar fashion to the Elohim), using magnetic energy.

XVIII. ALTRUISM GRID

This grid seeks out star souls and celestial souls, drawing them to us as it links us together. It's aim is the deification of 'Gaia' through the unification of these souls.

XIX. COORDINATION GRID

It organizes and coordinates higher dimensional energy circuitry (5th & above) ensuring that the right amount of Divine Energy goes to exactly the right place in our energy fields, where it is most needed, and at exactly the right time.

XX. INTERPRETATION GRID

Enables the accurate interpretation of multi-dimensional languages which, as with the Fluency Grid, we receive through telepathic communication.

XXI. PERFORMANCE GRID

This grid enhances and optimizes brain functioning and performance on all levels. It can be used to download completely new skill sets from the crystalline database (the Power Station), which stores all blueprints, templates and information, allowing Humanity access to the skills and wisdom of Upper-Dimensional life forms, thereby increasing our potential exponentially. It increases our ability to heal as it is excellent for removing deep-seated energy blocks.
