PREFACE

I am a channel for the Ultimate Light, Stargate Keeper, and Guardian of the Universes.

This is my 21st book. The first three a trilogy in Consciousness, the “Book Of Life”, “Life Essence”, and “The One”, are designed to move us into higher levels of consciousness, using the sacred Ancient energy technology of Light, based upon Fibonacci sequencing.

My fourth book “Communications from the Stars” is a series of channellings from Lightbeings, Galactic Councils, Collective Consciousnesses, and Archangels. There are messages from Yeshua, The Yeshua Collective, Salusa, Archangel Michael and many more. They offer their help, and support at this amazing time of transition in our lives.

My fifth book “Diamond Lightbody”, gives us technical information about energy fields and the lightbody processes that lead to Diamond Light Consciousness. Included in this book are the Diamond Light Key Codes that when used, will activate this Consciousness within us, returning us to our Immortal state of Being.

My sixth book “Atlantis Aurora”, tells us about the changes that will take us into the Golden Age once more, and how we can reinstate this wonderful high vibrational reality, through the Quantum triggers contained within the words, and the codes that were used in the healing temples of Atlantis.

The seventh book is from Max the 13th Ancient crystal skull. The skulls act as living libraries, multidimensional portals, giving us the codes for our evolution, and the crystalline body transition. This book contains the codes which unlock All Realities, returning them to fluidity in order to be reformed to our liking. Connect with Max through the vibration of this book to change your Destiny !

“The Hyperborean Portal” is a channelling from Agartha, our hollow Earth brothers and sisters. It tells us about our connection with them, and how they will resurface to help us to establish Peace and Harmony upon our world. It contains the entry code to the Portal, and the new 5D reality.

“The Infinite Universe” has been given to us by Archangel Ariel. It describes the nature of Universal and multidimensional realities and the species which inhabit them. It explains our role and our subsequent and inevitable shift to the new 5D reality and how this will be achieved.

“Quantum Entanglement Theory-A Handbook For The Gateway”, tells us about the “Gateway Systems”, their purpose, and those who are working to role out these systems. They contain the 'DNA Reverse Program', designed to delete the Anunnaki programs, and genetic modifications which were given to us at the end of the Atlantean Period. This book invites you to get involved in returning us all to a state of Empowerment.

“The Universal I” from Metatron, gives his wisdom on the nature of the 'Self' and it's innate light, the

unveiling of the Soul, the Merkabah fields, and our Soul mission and destiny as beings of light. Our inevitable rise to the higher echelons as more of our 'Self' is revealed. Contained within is Metatron's Advanced Program of Light.

“Crystals - Their role in Our Ascension” is channelled from the crystal consciousness of Antares. It gives detailed information about the crystals that have come here specifically to help us, with our Ascension process, listing those which have not yet been found. Included are techniques that will help to crystallize our energy matrix.

“The Ancient Crystals”, is a channelling from the Highest Light Consciousness to date. They contain a powerful energy matrix that is able to shift our reality and alter the course of our history forever. Connect with their amazing frequency **now**, if you wish to experience the greatest quantum change and growth possible, the STARLIGHT UPGRADE!

“Spirit As You”, gives detailed information about our inner Divine nature, our Lightbody changes, and our path to Greatness. This book contains an inbuilt frequency key which gives access to the Akashic Records, as it is time for All to be revealed!

“Star Crystals in Service”, is a channelling from many Star Crystals, who are connecting with us at this time to help us with the quantum shifts that are an inevitable part of our growth. They are introducing new programs of light, that are designed to activate our lightbodies. Connect with them now, to shift to the Spiritual Plane of Being, and higher realities.

“Inner Transformation” details our spiritual journey, and current entrance into the Golden Era. It contains energetic codes and triggers that will shift our energies, and expedite this wonderful transformation.

“The New You”, is a mini book detailing ancient systems of light that can be used to help us with our Awakening, and Empowerment. These are the esoteric teachings of long ago that are relevant now, as we face a huge shift in our reality.

“The Journey to Consciousness”, comes from a skull of Light, 'Diamond +', so called because he has a matrix which includes Gold and Silver. He is a powerful being of Light who, along with the other skulls, are helping us to advance to higher light octaves. As you read this book, his energy will integrate into your energy matrix, lifting it to new vibrational frequencies.

“Holding The Light”, is my next book. It tells us about our Divine Essence, and what constitutes Life and comprises our energy matrix, so that we can take steps to shift our vibration to the faster, higher frequencies of light consciousness.

“Unification & Healing” comes to us from the Annu. It sets out our journey and destination as spiritual beings of light. Giving us insights into our experiences through our vehicles of density, and ultimate transition to Light.

“The Gateway to Ascension” has been given to us by the Elders, or Ancient Ones. This book opens

new portals of light for us, and assists in our lightbody processes, both in the integration of lightbody codes, and their activation.

“Healing Timelines” is dedicated to raising awareness of the latest light technology, the 'Matrix Recalibration' system, which restores our original blueprint templates, thus facilitating healing on all levels.

I like to stay at the forefront of Spiritual change and am dedicated to bringing you the most advanced spiritual technology, from the Higher Self Aspects. Bless you All !

Healing Timelines

Introduction

This book is dedicated to the new healing system, known as 'Blueprint Reset' or 'Matrix Recalibration', and its benefits for Humanity.

Humanity as a whole has moved away from their basic template design, given to them, by their benevolent Creators. The original template was designed for health and harmony, throughout all body systems, including all energy bodies, at all levels of being.

A corrupt version of this template, is now operating within you, bringing disease, decay, and illness, to your body vehicles. The Light that once was has been dimmed, so much that the original form is now barely recognizable.

The original version for wellbeing, needs to be restored, to bring you back into alignment with your Creator Selves. The time is now right for this work to be done, with the elevated energies available to you. The templates of form need to be corrected, to restore your matrix to full functionality, so that you will again live long, healthy lives, and walk the Earth as Masters.

The 'Blueprint Reset' system, will accomplish this for you, by removing matrices that are out of alignment through miscreation, and reinstating the original matrix code. This will restore your matrix to pristine condition, so that it will again hold the Higher Light. The time of the shadow is over. The Light wishes to reveal itself to you, in all its glory..

Healing Timelines

Part One

Your perverted timelines have been running their own stories, which have created the dross within you. The flow of chi has been interrupted, and misdirected along new channels, causing weakness and limitation within the organism, so that it can no longer renew itself effectively.

Your bodies were designed to regenerate themselves periodically, in order to be refreshed, and to clear out any obstructions to the flow of chi, thus creating a self-sustaining matrix for life. One that needed no adaptations, or amendments. There would be no maintenance necessary, everything was to be done for you. This was your Creator's blessing, or gift to you.

However, you have seen fit to explore the denser, darker realms of your quantum reality field, and are now paying the price for this. It has been a huge price for many of you, and we wish to see you suffer no more.

Quantum realities are changeable. Nothing is set in stone, and as such, this situation can be reversed. We have given you the technology to accomplish this, through the use of the *Recalibration System*. This will effect huge changes for you, and will serve to course correct your lives, so that you are realigned with the Creator's original intention.

Healing Timelines

Part Two

Your transition to the higher planes, requires that you make changes to your energy matrix. A slow matrix will not take you to the higher realms of existence, and will keep you stuck firmly at the third dimensional level. This is fine if you do not wish to ascend at this time, and are happy with your experience of life.

However, many of you are seeking change. Your souls chose to be here at this momentous time, for this very reason. The opportunities are now great for your Evolution. Many potentials await you, to experience lives which yield increased abundance, in all things, material, emotional, and spiritual. Lives which are beyond comprehension to you now, in your present state of awareness. The Creator has provided you with all your needs, and grants you many wishes also.

To live in an expanding matrix, you must be willing for change. There must be no resistance within you, holding you back from reaching your highest light potential. Nothing slowing you down, and keeping you in density. The shackles of limitation must be removed, in order for you to harness your higher power, and move into lightbody. These obstructions are the miscreated forms of your matrix, which need to be removed. They are the legacy of the Past, and need to be put to rest, to allow you to move forwards into a new exciting cycle of light..

Healing Timelines

Part Three

The matrix removal process, is an easy one. When you have reached a sufficiently high enough light matrix, you will receive an adjustment to your third eye. This in itself is a form of recalibration, which allows the lens to see deeper into the structures of the space/time vortex. At this level, you will be able to see the starting point of the matrix, and its inherent components. These components will be visible to you, for the purpose of amelioration, and annihilation. Your renewed sight and power of intention, will be all that you need to change any matrix, and to render any undesirable elements within the matrix, inactive.

You are powerful creators of form, who create normally from your default settings, from the pre-programmed patterns, that have been generated through your experiences, and your responses to them. The time is coming when you will learn to create from a place of awareness, from a full consciousness of the outcome. This will lead you to create a much healthier and happier lifestyle. The programs of the Past, will no longer operate within you, and will become defunct. This will give birth to a new way of being entirely, and will forever set you free from the old Earth Matrix..

Part Four

Your Creator Selves have chosen to experience the highest light of 'Source'. This can only be

Healing Timelines

accomplished through the removal of lower vibrational energetic forms, which have become lodged in your matrix over time. The dross must be removed, if you are to absorb more light from the light fields of 'Source'.

There are many ways to do this, though you will find the 'blueprint reset' method, to be the most thorough. Its benefits and applications are vast. You can re-purpose your matrix to serve you, the way you wish it to. This involves changing your physical vehicles to a new template, one of wholeness and harmony. Thus giving you the ability to transcend your current form, and move into a much lighter expression.

Ultimately your Angelic/Human Template will be established once more, giving you the freedom that you need, and have long sought. Healings will be commonplace, occurring from the energetic changes that you are able to make, to your basic physiology, purely by intention and advanced inner sight. There will be no need for medications in this world. You will create the wellbeing that you desire, and deserve. What you call 'old age', will be a thing of the past. It will no longer be a part of your vocabulary.

The timeline to this miscreation, will be permanently closed. You are creating a new paradigm here, one of greater light, and advanced molecular biosynthesis, for the greater good of all..

Healing Timelines

Part Five

The dawn of a new era is upon you. Choose wisely your thoughts, emotions, and actions. These energy forms are your creations, they are not you. Use the tools at your disposal, to heal what has gone before, so that you can start anew, and begin this new chapter in your lives afresh, devoid of any contamination, or corruption of your energy fields.

The active elements in your matrix that are holding you down, must be removed. All the many timelines that you appear on, may have issues to be addressed. However, as you remove a miscreation from one timeline, a positive change will occur in others, due to the quantum network that you exist within, benefiting all versions of you. It is important to begin in the 'Now', in order to make positive changes in any other reality.

You have past, present, and future selves, and in addition, the interdimensional selves, these are the lives lived between incarnations, which prepare you for your next life. Then there are the parallel existences, which are created from your choices. Each decision, or choice that you make, creates a spin off reality, and a new energetic, which comes to life, and continues to experience this life in a new direction of exploration. What would life be like if, you had taken that job, accepted that challenge, entered into that new relationship? These are the decisions which confront you, on a daily basis. The creator in

Healing Timelines

you, seeks to explore all things, and to acquire information thereof.

Part Six

The quantum nature of life, means that there will always be changes to navigate. Changes in your biospheres, resulting from your experience. The experiential fields exist, throughout all dimensional realities, and have their impact upon you.

As you come more into alignment with your 'Source Self', this impact will be negligible. This is due to the increased harmony within you, resulting from your compliance with spiritual law. As you follow Spiritual Law, your bodies will be magnetized to the light. Thus they will draw more and more light into themselves. It is the light which refines them, making them a finer vehicle of expression.

Introducing more light, will create these changes, hence the need for the addition of light codes, into your energy field.

Using *the Blueprint Reset system*, will achieve this. These white numbers are the codes that will create the changes that you need, to eliminate the denser material from your energy matrix, allowing you to raise your vibration. You are energy beings of light and density, existing within many matrix fields simultaneously. These fields need to be purged and realigned, with their original blueprint code for life..

Healing Timelines

Part Seven

Your forces within, are your divine creator's gift to you. They are streams of light and consciousness, which flow through you. When you cooperate fully with these energy streams, you experience health and wellbeing at all levels.

These are the divine instruments of perfection, the creative forces, out of which you build your lives, and shape your body temples. When the code of life is adhered to, your bodies are strong and resistant to disease. They do not fall prey to illnesses, and lower vibrational energy forms. Instead, they maintain their vibrancy and youthfulness, forever renewing themselves, out of the life force.

This is the state of superior being which you carry within you. It is always available to you, and is not some remote ideal, which you need to aspire to. It is the blueprint of your life, the original intended design. Your patterning has been modified, and your script for health rewritten. However, this is just a program that is running within you, one which uses the creative forces to build abominations, rather than vessels of light.

Re-purpose your matrix, so that it draws the life force back through the proper channels of manifestation. The codes of the Blueprint Reset System, are the key to this..

Healing Timelines

Part Eight

Your manifestations can be pure and unsullied. The Etheric Sheath can filter out the gross energy forms which beset you. By recalibrating this etheric sheath that surrounds your body, you can be restored to wholeness again, and shielded from the lower vibrational energies, which exist within the quantum soup of creation.

Your lightbodies in the third dimensional reality, are nothing more than your etheric bodies. The sheath is the protective energy layer, around the light body. It is woven from very fine material, and has a mesh effect, which works as a type of filter.

Lower vibrating energy forms, can become trapped in this mesh over time, and need to be cleared. After all, do you not clean the filters of your earth vehicles, and appliances?.. Clearing away these dense energy forms, will be of great benefit to you, and will allow our lightbody to radiate its light through you, more easily. As the dross falls away, you will become your most radiant selves!

Part Nine

Miscreations abound. They steal your youth and vitality, forcing you to live within a limited range of experiences. Their activity, permeates all levels of your being, and all energy bodies, stemming the flow of Chi, to vital parts of your

Healing Timelines

system, draining you of your elemental life force. You are like the grape, withering on the vine, for lack of sustenance.

Your depleted lifestyles, cannot continue. Change is long overdue, and needs to be implemented as soon as possible, to restore you to wholeness again. Your vehicles cannot successfully expand, whilst constricted in this way. The light that is you, cannot express itself fully, in this condition. Your matrix fields must be restored to their original encoding, to allow the life force, to present fully, within you.

In truth, you are radiant beings, that know no bounds, beings of limitless possibility, living within the creator's playground, with all its gifts at your disposal. Use wisely the gifts that have been given to you, to recreate your lives and your body temples, so that you can enjoy life once more, that most precious of gifts, in itself..

Part Ten

The wonders of the created form are just beginning to be understood, and tapped into. Currents of life force, are being seen as energy networks, and systems of light, which feed the body.. The lifestream is but the etheric counterpart of the bloodstream, carrying vital elements for growth and renewal. The meridians are the circuitry, which carries the vital components for stability, across the network. They work together to create the most harmonious expression.

Healing Timelines

System failures occur, through imbalance, through energy misalignment, misdirected thought habits, and emotions, which take you out of synchrony with the whole. Getting control of your thought forces, is key to sustaining a healthy body and mind. However the challenges you have faced in your daily lives, have made this difficult to do. Some of you resort to esoteric practices, such as meditation, which help to lift you to the Superconscious level, where you gain a greater awareness of life, and its workings within you. Others use energy applications, such as activations and attunements, to awaken the forces within them.

The use of these energy applications, generally brings results more quickly, as they are able to get to the root cause of conditions, to free the trapped energy that lies therein.. Whatever tools you use, be sure to choose the highest light ones, those of a fast vibration, that can effect change rapidly, removing toxicity from the body, and its energy systems..

Part Eleven

The ancient mechanics of form, are constructed upon advanced spiritual law, laws known only to the highest beings of light.. These are the masters of space and time, who dwell in a much higher reality than yours. Their experiences of light are different. They are able to bend the laws of the Universe, and apply energetic codes, to create that which they desire. Their knowledge is profound, and their wisdom exceeds all species.

Healing Timelines

The awakening within you, is stirring up the memory of this knowledge, for you also are masters of time and space, in your own right. You are sovereign lords of the Universe, who have temporarily forgotten who you are. This awareness and knowledge is returning to you, so that you can step up your light, and become your highest light expression.

Technologies will be given to advance this state, and further your course into the Great Light Fields. The technological advances are already happening, within the spiritual sphere. Tools are continuously coming forth, and rallying to your assistance. The '*Blueprint Reset System*' is one such tool, that has arrived to serve your light..
