PREFACE

I am a channel for the Elohim, the “Orion Star Grids”, (DIY Ascension tools), the “Gateway Systems” from ‘Atlantis’, and “Scalar Energy”. I have the ability to reach beyond the Earth’s energy matrix to bring through information and advanced technology from “Divine Beings of Light.”

This is the tenth book that I have channelled, the first three were a trilogy in Consciousness, the “Book Of Life”, “Life Essence”, and “The One”. All are designed to move us into higher levels of consciousness, using the sacred Ancient energy technology of Light, based upon Fibonacci sequencing.

My fourth book “Communications from the Stars” is a series of channellings from Lightbeings, Galactic Councils, Collective Consciousnesses, and Archangels. There are messages from Yeshua, The Yeshua Collective, Salusa, Archangel Michael and many more. They offer their help, support and suggestions, that will help us enormously at this time of transition in our lives.

My fifth book “Diamond Lightbody”, gives us technical information about energy fields and the lightbody processes that lead to Diamond Light Consciousness. Included in this book are the Diamond Light Key Codes that when used, will activate this Consciousness within us, returning us to our Immortal state of Being.

My sixth book “Atlantis Aurora”, tells us about the

changes that will take us into the Golden Age once more, and how we can reinstate this wonderful high vibrational reality, through the Quantum triggers contained within the words, and the codes that were used in the healing temples of Atlantis.

The seventh channelling is from Max the 13th Ancient crystal skull. He and the other 12 skulls act as living libraries, multidimensional portals, giving us the codes for human evolution, and the crystalline body transition. This book contains the codes which unlock All Realities, returning them to fluidity in order to be reformed to our liking. Connect with Max through the vibration of this book to change your Destiny !

“The Hyperborean Portal” is a channelling from Agartha, our hollow Earth brothers and sisters. It tells us about our connection with them, and how they will resurface to help us to establish Peace and Harmony upon our world. It contains the entry code to the Portal, and the new 5D reality.

“The Infinite Universe” has been given to us by Archangel Ariel. It describes the nature of Universal and multidimensional realities and the species which inhabit them. It explains our role and our subsequent and inevitable shift to the new 5D reality and how this will be achieved.

This is my tenth book. It gives information about the “Gateway Systems” and their purpose, and the Master Activators who are working diligently to role out these systems as part of the 'DNA Reverse Program', designed to delete the negative

Anunnaki programs, and genetic modifications which were given to Humanity at the end of the Atlantean Period of History. This book invites you to get involved in returning us all to a state of Empowerment.

I like to stay at the forefront of Spiritual change and growth, and if like me you are dedicated to evolving and bringing Love, Peace, and Harmony to this world, then you will want to use this book. Bless you All KI-RA

Acknowledgments

I would like to give a huge thanks to the wonderful Beings that have given us these books, and to all those that have been involved in their production. Bless you All.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Your cellular structures are infinite vessels of embodiment. This allows for the imprinting of the hologram onto your templates.

The body's vehicles are connected energetically, so that information can be transmitted from 'Source Mind'.

The electrons carry vital instructions for each neuron that comprises the nervous system. An electrical charge is emitted from the Quantum Field, which contains a scalar charge. The two are melded as one, the electron being the carrier of the scalar frequency.

Evidence supports the merging of holographic identities, within the same framework of both linear and multidimensional timelines. Thus it is conceivable for more than one identity to operate through the same interface. This is particularly significant at this time of merging quantum realities, that are issuing from the Void.

Your present timeline has limitations placed upon it, and will inevitably give way to a new one, one of greater expansion that allows connectivity to all realms of existence. This timeline will be a far superior one, that will lead to greater awareness for you all.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Your quantum reality field is transmitting new encodings for your use. Your deification is in process through the implementation of these quantum codes. It is of paramount importance for you at this time, to absorb these into your energy fields. This is groundbreaking territory, and will take you to the next level of your Evolution.

Simplistic states of consciousness are prevalent in your world. These are the Annunaki driven states of mind, that were used to control and enslave you.

A very long time ago, you agreed to a decline in consciousness, which was part of a major experiment to redefine life, and to evolve it significantly. A major upsurge from the 'Core', was expected to be the outcome of this diminished consciousness. Such an outpouring of plasma would impact upon the Whole of the Cosmos, forming a monumental shift within all life. The successful outcome of this shift, will see a transformation of epic proportions taking place. The limited consciousness that you have had to endure will be transfigured into new dimensional form. This will take place slowly at first, but will gather momentum as you integrate more of the codes that are being given to you. Success depends upon the level of integration which occurs within your matrix fields.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

An integration of the matrix codes for evolution, will establish a new hologram for you all. One that functions with greater capacity and reflects more of your dimensional light from 'Source'.

There is an inherent 'Source Code' present within everyone. It has been there since the beginning, awaiting the cycles of renewal that are forever changing your landscape.

New systems have been devised, and structures built upon this code, giving increased awareness faculties to all Beings.

The transient nature of life will be seen to be a sham. Yet another illusion implanted within you, a distortion of the true reality of continuity. There are no endings or beginnings to your lives, just different stages, as in the growth from childhood to maturity. The purpose of the illusion was to force you into fear consciousness, and through this manner it would be easier to control you.

The control mechanisms have now been loosened, to allow you to blossom in the light once more. This is bringing unprecedented levels of growth to you all. You have been held down for long enough. Now is the time for you to rise up and reclaim your power. The infinite nature of your world, is revealing itself to you now, in it's full glory.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

The Gateways are an advanced system of star networks that traverse the Universes. Their function is primarily to upgrade all living forms. This upgrading takes place by increments.

The systems network is vast, and covers many parallels and alternate realities. It is designed to function with the Scalar Frequency, as this contains the highest light quotient.

These networks supersede all systems, providing the greatest tools for transformation. These tools have been given to Kira, to pass on to you all, at this time of awakening. She is empowered to bring you into alignment with these networks, so that you will be able to align with your highest expression of 'Self'.

This is a great work that is being undertaken here, one that will see the emergence of the Divine Creator in you all. Your vibrations will be encoded with supremely powerful data, which will take the place of your existing codes. This encoded information will transform your cells, changing your body script entirely to a new format. This will be the body script of the 'Immortals', the race of giants that have walked your Earth previously.

These transmissions will be given to you through Kira initially. Soon you will be empowered to transmit the codes yourself to all Beings.

These networks of light will provide many changes in your matrix, culminating in a Re-Birth for Humanity.

Until recently this energy has been suppressed, by those who fear it's outcome. Their agenda has been to limit your growth. Ours is to expand it. The

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Gateway networks align with the current emerging expansion which is taking place. They cannot be held back any longer.

The pristine nature of your vehicles, will be returned to you, as this expansion process escalates. This is one of the many benefits of these changes. Health and Wellbeing will become the norm, and Peace will at last settle upon the Earth.

The principal functioning of your matrix and lightbody systems, is to renew all life.

The energetic variations which exist at the cellular level, are a miasma of thought form. These miasmas occur when your thought is misaligned. Your true potential is thwarted as a result of these deviant thought forms. They belong to the lower life forces of Creation.

Higher impulses await you, their fire is burning bright. It is illuminating all realms now, especially your third density. This Cosmic Fire is unlike anything that you have witnessed before. It is purging everything that it touches, with the purity of Heaven.

The Fire Dragons are in their ascendancy at this time. Their task is to renew and regenerate all living forms. They have elected to work with Kira, who has

Quantum Entanglement Theory, 'A Handbook for The Gateway'

been chosen because of her dragon heritage. She is one of them in embodiment, and will steer you along the correct path to the Light once more. Her reputation is not yet known, though her influence is powerful. Her Divine Ministrations are just beginning.

The finite nature of Being, is part of your transience from form to form. The transient nature of life is but a mirage, concealing the true Infinite Lifestream.

The Divine embodiment of form is brought about by fractals of light. These fractals are an attribute of Deity. Formed within the prismatic light of 'Self', they carry the Divine intention to it's conclusion. Their resonance, is that of the Divine 'Phi'. Their unification with the field of matter, creates the basis for all life. It is thus that the Divine finds expression.

Tiny particles of mass are drawn together by magnetic fields. The attraction is irresistible, and the molecular structures develop. The impetus of unity binds them together, for they share a common purpose. Many of your forms share similar attributes. These are geometric correlations, given to you by the sacred geometrical encoding, which drives all creation. The parameters for the encoding are prerequisite. They follow a Divinely ordained pattern,

Quantum Entanglement Theory, 'A Handbook for The Gateway'

which is chosen for each form exclusively. Like the snowflakes that fall from your sky, these patterns are unique, forming an individual expression of the 'One Life'. Molecular changes will occur over time within each form, though the form will still carry it's individuality.

Growth will take place inevitably by Universal Law, which decrees expansion and amelioration. Improvements are constantly being made, and upgrades performed, to enhance the life experience of all living beings. This is a fundamental part of the plan. All living things respond to their Soul Plan, through Nature and purpose.

There is a hidden component which enables multi-functioning across different timelines. This is now becoming active within you. Morphogenic Fields hold everything together, within the Hologram of Humanity. They enable you to share both data and information, consciously. These are your fields of consciousness, expressing itself through matter. You have a shared field between you, which serves the Whole, which you call the 'Collective'. It is through this field that the Whole expands.

As each one of you brings new information into the Collective Matrix, it becomes readily available to all. What one achieves, all can aspire to, due to the nature of this field. Each individual holographic change has a huge impact upon the Whole. This is how the upgrading process takes place, and monumental shifts in the field of awareness. In biological terms, new species are born as a result of this process, redefining what it is to be Human.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Loosen your fixed ideas about what you are. You are permeable energy fields that are morphing into so much more. Loosen the grip on your reality, it too is morphing to reflect your inner changes.

The energy streams of 'Source' are infinite. There are numerous possibilities springing forth into reality. The only limitation is your mind. As a construct, it is only an interface with your third dimensional reality, and serves no other purpose than that.

You are traversing the mind barrier, as your conscious awareness expands, crossing over into other realms of existence, which are beyond the comprehension of your mental faculties. These supernal states of Being, are just the threshold of an exciting new journey which awaits you.

An inward journey needs to be made. This journey will take you to many planes of existence.

The diurnal secret of life is now available to you, as a part of this awakening process which you are all undergoing.

Changes in the metaphysical nature of life, are filtering down into your body templates, which are trying to adapt to the incoming information. This has brought about a resistance within some of you, who

Quantum Entanglement Theory, 'A Handbook for The Gateway'

are resisting the new unfamiliar energy.

Changes at deeper levels will stir up many things for you, bringing them to the surface to be released. These quantum energies are a powerful driving force for change. They are catapulting you into unknown realms to make the alterations in your energy fields, which you need at present.

Einstein's equation of $E=MC^2$, falls short of the true reality. Energy is regarded as a tool here, rather than the fabric of life. Everything is constructed out of energy. The life force builds its structures upon this framework, these energy lattices, which are designed to catch particles of light within them. This is how the building process occurs.

Synthetic changes in your energy fields, are responsible for divergent forms of life. These are the crystalline matrix forms which belong to other realms of life.

The importance of these forms at this time, is that they are resonating at a much higher frequency than yours. Their genome has been improved by the stellar stargate systems, otherwise known as the 'Gateway Systems'.

The primary reason for the existence of the

Quantum Entanglement Theory, 'A Handbook for The Gateway'

'Gateway Systems', is for the upgrading of all life. They operate at the Quantum level of Reality, bringing an infusion of Quantum Light into your cellular bodies. This has a transforming effect upon your genetic material, creating a deep and permanent change within the cellular matrix. The holographic field is thus altered, and a new superior being emerges, like the butterfly from the chrysalis.

Your new genetic material will contain many seeds from other worlds. Seeds of knowledge and wisdom from the stars, that will benefit you tremendously.

These advanced systems are active now upon your world. They serve the very highest principles of life.

Advanced modern technology is changing the face of your world. The instruments and devices that you are creating, are revolutionary.

En masse, you are transcending the boundaries of technological know-how. These advancements come from your superior growth as a race of divine sentient beings.

Your technology will continue to improve, and advancements will be made that are beyond your wildest dreams. These are being led by your Spirit, as it reveals more of it's infinite nature to you. Your

Quantum Entanglement Theory, 'A Handbook for The Gateway'

spiritual growth is spurring these new developments for you all.

Science is set to be the spiritual forerunner, that will elevate you beyond the norm. Your matrix changes are already creating new scientific projects, which have not yet manifested within your reality. These changes are escalating your abilities, and your potential to create out of the divine substance of life, that which you most desire.

All things are possible to Creator Beings, with limitless tools at their disposal. Your evolution will be carried forwards by these tools, that will serve you as masters of your reality. Significant change is upon you now.

What has been begun, cannot be stopped, as all of life marches onwards into the infinite future, in your linear terms.

Major reconstructions are taking place, in order to fulfil the impetus for divine renewal. Your very existence depends upon these changes being made. You are being provided with new templates that will furnish you with different physical vehicles, which will possess extraordinary attributes. These template structures are more complex. They have a more

Quantum Entanglement Theory, 'A Handbook for The Gateway'

sophisticated geometrical configuration, than your current ones. This will create significant improvements in your abilities and expression.

The new matrix geometry holds powerful keys for your evolution to beyond the human being. These keys are tools for your awakening. They unlock the potential of the Divine Mind, stimulating growth and progression.

The unlocking of your reality is a necessary part of the process. This will have the effect of returning all forms to the fluid state of compliance, from which a new reality can be shaped. A new creation is born from the old.

The window of opportunity is opening now. A new destiny awaits you, one that is filled with the promise of magic and mystery, and untold treasures.

Your inherent programming needs to be altered in accordance with the new matrix programs of light, which have been designed for your ascension out of dense matter.

These new programs are infinitely more flexible than your present ones. They allow you to assimilate more light codes into the field of Being, thus strengthening and increasing your auric field.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Your auric field contains the chakra system which is currently aligned with third density. The installation of new light codes into your energy matrix, will have the effect of upgrading the chakra system. Previously dormant chakras in your energy field will be awakened. These will serve you in many different ways than your existing ones. They will act as energy portals to higher dimensional spheres, and will link you to other star systems and multidimensional realities. They are time coded, and ready to be unlocked now, for your highest good.

New light filaments are being constructed for you, to increase the capacity of these chakric portals, in order to align them with much higher frequencies. These portals of light will change your very existence, opening new vistas for you all.

The etheric web is impregnated with light codes. It is underpinned by the stargate systems, otherwise known as the "Gateway Systems". These advanced systems are responsible for expediting growth, and bringing about great change. They are the stewards of your evolution, and will set you upon a new course, one that is in harmony with your authentic self. This new path to the stars, will awaken you from your dream.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Multidimensional faceting is part of your nature. You exist simultaneously on many different levels of Being. Yours is a nature of vast energy fields, all overlapping each other. They are dimensionally linked from within. This is the only way to access these fields. The successful shifting to another frequency, will move you into these fields, since a frequency alignment with the fields, is all that is required.

Matter exists as a slower manifestation of energy, at the lowest end of the scale, if you will. As the energy particles become finer, they become a more refined Universal material, providing lightbodies of a much faster frequency, which are not slowed down by dross. These lightbodies are adept at moving between the dimensional realities, since the lattice structure of the web allows them to pass through. You on the other hand, are too dense in your current dimensional reality, to be able to do this.

But this is changing. You are destined to receive much lighter vehicles for your use. The energy matrix is changing to accommodate these vehicles. The light point at which they will become available, has almost been reached. Once there, you will shed the old energy of the third dimensional reality, and be transformed. This will be the point of no return, the point at which your lives really begin to unfold in the way that they were intended.

Bilateral codes exist to aid you in this process. These codes coexist alongside your present geometry, on a parallel timeline. It is these same codes which the "Gateway Systems" utilize, to align you with a higher

Quantum Entanglement Theory, 'A Handbook for The Gateway'

geometrical presentation of form.

Recalibrations are necessary for this alignment to occur. These will be provided for you by the "Gateway Activators", who are empowered through Kira to transmit the energy packets, containing the codes.

This work is only just beginning on your world. As more of you are attuned to these frequencies, it will spread rapidly, speeding up your evolution in the process.

The multidimensional fields of existence, secrete knowledge and wisdom beyond your comprehension. The 'Avatars of Light' have held this wisdom for you, until you are ready to receive it. They are past masters of energy and transmutation, having followed their path diligently to the light.

They exist at a frequency far outside of your range. Their vehicles are sheer transcendence. Having no veils to remove, their light is powerful and unimpeded. They exist to serve the Cosmos in it's spiritual development and growth.

Advanced technologies are available to the avatars, who are acting as a conduit for them. They are grounding these into the planetary matrices of all

Quantum Entanglement Theory, 'A Handbook for The Gateway'

planets in the solar system, where life dwells. This forms part of the ongoing work of 'Source Alignment' which is active within the Universal realms.

Major projects are being undertaken at this time, which synchronize with this alignment. Many advanced beings of light are involved in this great undertaking. The avatars have specialized knowledge of energy transmission systems, enabling them to provide the codes for transformation. These codes of transformation, are the codes of the "Gateway Systems", which are a fundamental part of the etheric web.

You are being asked to come into alignment with these codes. This is a prerequisite for your evolution. No spiritual growth can occur without the activation of your DNA Templates. The activation energies will reawaken you to your divine potential, restoring your energy matrix to it's original intended design, or blueprint.

The multi-functioning of your lightbody, is brought about by additional matrix codes. These codes have a reset facility, that will override existing programs, allowing the imprinting of new programs of light, ones that will adapt readily to a changing

Quantum Entanglement Theory, 'A Handbook for The Gateway'

environment.

This reset facility takes many forms. It uses quantum light to make the changes that are needed, focusing this light upon areas that require modification. This light makes the structural changes to your geometrical templates, that allows even more light into your cells.

Your cells resonate at a specific frequency, that represents a particular octave of light. As the new light is received, your bandwidth increases. It is somewhat like shifting from analogue to digital, in your telecommunication services. The resulting outcome is that more channels or frequencies, become available to you. These extra frequencies present opportunities for growth, and expansion of 'Self'.

Your light bearing abilities are increasing. As you absorb more of the galactic codes into your energy framework, they are facilitating change on a grand scale.

Monumental shifts are only made possible through the changing of your inner codex. This will come into effect via the activation energies that are being sent to you, from the galactic realms, and certain

Quantum Entanglement Theory, 'A Handbook for The Gateway'

empowered lightworkers, who are in themselves activators of the divine frequencies. Their work is a special gift to you all. A gift that will finally raise you out of density, and back into the light once more.

The forces of light are impacting upon you from the Stellar Stargate. This opening is being made for your transition. This powerful vortex of light is calling you to ascend. You must let go of the old ways, and relinquish that which no longer serves your highest good. You must allow this new energy into your lives, to sweep clean every area, to make room for a more superior way of living, one that will benefit you immensely.

All is being given for your greater good, and highest blessings. It is time to leave the past behind you.

There is a greater scheme which all things obey, this is the 'Law of Love'. Love is the foundation of everything in existence, it is the cornerstone of your reality. It creates many links and bonds through its attractive power.

At the subatomic level, particles are drawn to each other to form atoms, which are used as the building blocks of structures, which create the fabric of your

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Universe.

Molecular bonds are formed which become your DNA helixes. These helixes will then determine your biology, and your subtle bodies. Intro-cranial activity is fired through these atoms, resulting in consciousness streaming from your 'OverSelf'. It is thus that individualized, seemingly separate beings are projected into reality.

DNA is responsible for the character traits, for the strengths and weaknesses of the Being, as it unfolds its destiny within the Cosmos. It is the fundamental driving force for life, as it grows vehicles for your use, to enable you to participate in the Great Game.

The impulse from Divine Mind, is sent periodically to all living things. This impulse acts as a wake up call for the DNA. It not only affects the DNA which is currently in use by you, but also the DNA which has been lying dormant within you for millennia.

The action of the divine frequencies upon the DNA, has an upgrading effect for all structures within the lattice framework. New atomic particles are formed, and new molecular bonds created, to house your newly emerging Selves. The rainbow rays of the Cosmos, carry information and light for the DNA, enabling it to grow and develop. As the DNA changes, the very essence of your being changes along with it, bringing the evolutionary forces to bear upon your nature. This is how life expands and grows. It is always in a state of becoming.

Your life purpose is to align with these forces of nature, to grant them entry into your energy fields, allowing them to carry out their divine work

Quantum Entanglement Theory, 'A Handbook for The Gateway'

unimpeded.

The completion of your cycle is imminent. Many changes have brought you to this place in your history. The journey has been tough, the trials never ending, seemingly. However changes are accelerating now, they are picking up pace as your old system draws to a close.

As a rule system changes take time in third density, due to the molecular structure of the framework that is supporting this dimensional reality. This network of molecules is being collapsed and replaced by a firmer and stronger one, one that is better equipped to support the changing patterns of your Evolution.

Molecular density is not your enemy. It has served it's purpose well, despite the uncomfortable payload of drama that it carries. These dramas have served to activate your awareness, raising it higher and higher towards the state of At-One-Ment.

These projected realities, are part of your Soul's urge to participate, to learn, and experience life in many ways. Each reality presents opportunities to step beyond your dimensional form and it's boundaries, thus breaking new ground, and sowing the seed for further growth within each matrix.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

This opportunity is upon you now, the chance to evolve into a new life form. A more promising and exciting future beckons for you all. When a window closes, a new one opens, giving you a more expansive view. The terrain will be somewhat different to that which you are used to, but you will successfully acclimatize in time. New inroads are being made for you, in this wonderful adventure of yours.

Multiple timelines are converging, to create a new reality for you. Your existing matrix is energetically challenged, from the perspective of 'Real Time'.

That which you call the 'Now' moment, is when everything exists simultaneously, or when any given point in time can be reached in an instance. This is the true definition of the 'Now' or 'Real Time', as we call it. There is no linear movement or progression. Time behaves differently here.

Because of the nature of 'Real Time', you are afforded many opportunities for your development. You can choose to experience any timeframe that holds potential for your growth and enlightenment, as beings of the divine creative force.

The restrictions which exist on your current timeframe, do not apply here. The experiential platform is more flexible, and has greater depth.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Beings have many choices, dependent upon what their Soul wishes to experience. There are a plethora of choices available to you here.

The 'Now' experience is not as you believe it to be. You will come into a greater understanding of this phenomena, as it begins to open it's doors to you. Many levels will be tapped into, as your consciousness unfolds, leading you on new greater journeys of discovery. The quest will be fulfilled, as you step back finally into the fifth dimensional reality.

Transformational forces are entering your planet. These are from the constellation of Orion. Orion holds the key to many changes within your energy matrix. It has the power to create new life forms, and bring radical change to existing ones.

The Orion codes are stored within the Orion Matrix of Light. They are made available through the three portals of the Orion Belt, 'Alnitak' , 'Alnilam' , and 'Mintaka' . These portals can only be opened by the Orions themselves, those with the 'Elohim' ancestry.

The 'Gateway' frequencies contain these Orion codes as part of their transformational work. The Pleiades are also transmitting frequencies that are important for your evolution as a species. These

Quantum Entanglement Theory, 'A Handbook for The Gateway'

codes are again provided for you by the Gateway Energy.

The Gateway Systems supply everything you will ever need for your transformation and ascension. They are comprised of many elements which operate from the Quantum Field, instigating change from the 'Core' level of 'Being'. Subatomic particles are rearranged to provide new encoded sequences. These new sequences will repair, adjust and transform your DNA. This will allow an expansion from within the Higher Self Matrix. New codes shall be fired, and existing ones triggered into action, for the purpose of this transmutation process. Large scale fundamental change is produced by the working of these energies, changes that will far surpass your previous growth. The 'Gateway' is the engine of growth for all levels of Reality, and cannot be superseded.

There are new planetary systems coming online. These will eschew vast amounts of knowledge and wisdom for your use. The 'Gateway System' is designed to continually update itself with the emergence of new data into it's fields. These new planetary systems will thus be incorporated into it's

Quantum Entanglement Theory, 'A Handbook for The Gateway'

matrix, and become available to you all.

Time codes are set at different stages of your evolution. They are positioned at various points in your life cycle, to propel you forwards with a new growth spurt. They are used to fuel great changes, giving you the impetus for forward movement. When activated, they will help to push you out of old energy patterns into ones that are more viable and suitable for your development. The growth that is achieved through these codes, can be phenomenal. Their activation can set you upon a new course entirely, awakening great potential within you. Potential to transform you individually, collectively and Universally.

You have arrived at one of these activation points now, on the road to 'At-One-Ment'. Success will be attained by recognizing the need to be transformed. The feeling of being 'stuck' is a good indicator of the need for change, as is the presence of repeating cycles and patterns in your lives.

It is the responsibility of each individual soul to make this choice. Recalibrations are a necessary part of your realignment process. They need to be carried out by those who are empowered to do so, such as the 'Gateway Activators'. They are offering you the chance of realignment with a new energy matrix, which holds a vastly superior encoding than your current one. Your present one has many limitations that will keep you confined within the struggles and strife of third density.

From our vantage point, we see this as an easy choice to make. For we can already see your 'Selves'

Quantum Entanglement Theory, 'A Handbook for The Gateway'

in this new matrix of glorious light, and we tell you that it is a wonder to behold.

There are different levels of the 'Gateway' frequency. These will be delivered to the Activators of the energy, by way of a downloading into their Consciousness Fields. In this way their conscious intention to send the energy, will be sufficient to start the flow.

The energy upgrading will occur in stages for the recipients of this frequency. Many things will have to be factored in, such as the existing condition of their energy fields and chakra systems, and whether blockages need to be removed, prior to the upgrading process.

The initial work of the energy will be to seek out, identify and remove all blocks within the energy system. The Gateway Frequency has it's own innate wisdom, and knows exactly what to do to achieve this result. Once the energy blocks are successfully removed, the Gateway energy starts to work on the individual's DNA. A repairing and upgrading process will then take place.

Gene splicing will occur in order to create new DNA. Additional encoding will be attached to the strands of

Quantum Entanglement Theory, 'A Handbook for The Gateway'

the helixes. It will not be necessary to grow more three dimensional helixes, since you already have other strands available from the etheric field. These etheric strands will be given the new encoding, from the subatomic level, and will subsequently be activated into being, by the Gateway energy.

This will be an ongoing process, and the recipient of the energy, will require a number of treatments to complete the work. This number will usually be determined by the capabilities of the Activators themselves. Each Activator has been downloaded with various programs which originate from different star systems. These star systems include, the 'Excel' (your current solar system, containing all of it's nine planets); the 'Andromeda' system (containing thirteen different matrices); the 'Isis' system (containing the star codes from Sirius); the 'Genesis' system (which is a new system of combined encoding from parallel worlds and dimensions); the 'Auriga' system (containing metaphysical data for your lightbodies); the 'Antares' system (which contains a number of very advanced codes); the 'Pegasus' system; the 'Arcturus' system (again containing advanced Light Technology); the 'Merka' system (containing numerous lightbody codes), and the 'Orion' system (containing all the 'Galactic Centre' frequencies and codes).

Not all Activators have been brought up to speed with all of the systems. Some have yet to receive more downloads. It is entirely their choice, which systems they decide to incorporate into their work. Regardless of how many system downloads they have

Quantum Entanglement Theory, 'A Handbook for The Gateway'

received, you can be sure that only the most advanced technology of light, will be given to you through them.

The 'Gateway' is an infinite expression of 'Divine Mind', given to you from the Heart of the 'Creator Self', who wishes to see only the manifestation of your Highest Good.

The evolution of your matrix, will set you upon a new course in the history of Mankind. One that will raise you to heights never before seen by you. The dross shall be dissolved from your energy fields, allowing the Light of 'Source' to shine brightly through. You will become luminescent beings of great light, power and wisdom, as your divinity reveals itself through the layers of 'Self'.

Instantaneous transmutations shall occur for some, whilst others take the longer path, each according to their soul's inclination. Those with well established matrices, will spontaneously shift into the new consciousness, having been upgraded in preparation for this. Each soul makes it's own choice when it is ready. Those that are ready for the upgrading, will be guided from within to receive the necessary attunements, whilst others will follow at a later date.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

There is no race or competition in this, as all follows a natural order.

There is much that can be achieved by you at this time. Unprecedented growth is taking place, both around and within you. Linear progression is coming to an end, having outlived it's usefulness as a tool for growth. New tools are being presented to you now, that will elevate you far beyond your present level of development, synchronizing you with higher dimensional life. The trusted ways are no longer to be relied upon for your salvation. This will be brought to you through different channels and much higher frequencies than the norm.

Quantum upgrades are in alignment with your Higher Selves. The multidimensional frequencies that are being received, will carry you forwards into a new paradigm.

The existing system will become closed to you, in order that you will no longer be able to access the lower frequency fields of life. For generations these fields have been active within your lives, bringing you misery and distress. This cannot continue. Life holds many riches that have been kept from you during your sojourn on the Earth. There is a storehouse of

Quantum Entanglement Theory, 'A Handbook for The Gateway'

wealth and knowledge, which has as yet, been untapped by you. The rigours of the third dimension, have excluded these experiences.

Abundance is your birthright. Yet we see many of you struggling to acquire your needs, let alone fulfil your wishes for a better life. In contrast with this, prosperity is the norm for multidimensional living. There is no lack here, since everything manifests for our good spontaneously. Our heart's desires are fulfilled easily, without strife.

This wondrous life shall be a benefit of the quantum shifting that is taking place in your reality. It is your destiny to experience a better, more wholesome life, to be all that you can be, for the good of the 'Whole'.

Life purposes will change when you enter these new frequency fields. You will no longer be focused upon the mundane aspects of living. This energy will free up your time, so to speak, allowing you to create new opportunities for experiences that you cannot as yet imagine. This is what the upgrading process is moving you all towards.

The signs are in the heavens, of these coming changes. Many who study the occult sciences such as 'Astrology', will be able to see them. They foretell the

Quantum Entanglement Theory, 'A Handbook for The Gateway'

coming of a great age, one whose influence will spread across the Cosmos, fueling the birth of many new paradigms.

Your nature is that of light, formed into structures that house your Soul. Your consciousness is infinite and is the expression of the Creator, whose life you share.

The creative patterns for growth are established within the energy fields, since it is energy which provides the transformational force. These patterns are amended from time to time, and are reconfigured to produce change within your vehicles.

Knowledge of your past is contained within your memory fields. A past era of abundance, health and wellbeing. These were attributed to the faster frequencies which you had at that time. Your frequency range or bandwidth was considerably larger than it is now. It incorporated many finer elements, which you have lost over time. A re-engineering took place that downgraded your consciousness, effectively removing you from the higher echelons of awareness.

Your inability to operate from the highest levels, continues to date. We wish to see this changed, so that you may again enjoy the benefits of a higher standard of living.

Your energy matrix has accumulated dross over time, which is restricting your growth. This must be eliminated, to return you to full functioning. The way to achieve this is by the installation of programs of light, which will have the effect of upgrading you to a finer operating system. This is somewhat like the

Quantum Entanglement Theory, 'A Handbook for The Gateway'

upgrading of your computers, which you all do willingly. Now is the time to invest in your personal upgrading. Are you not more important than the machines which you have created?

A systematic rising of consciousness is required to return you to your former Selves. The prismatic light quotients will be lifted accordingly, in unison with this.

The ability to navigate your consciousness fields will be taught to you. This will enable you to flow your consciousness between the third, fourth and fifth dimensional realities. Consciousness switching is an ability which you will come to use a lot. This will be a marked step forwards in your Evolution, taking you to a degree of mastery that you haven't experienced for millennia.

This is one essential component of Mastery. There will be other areas that you will need to focus upon, such as the realignment of your energy bodies, with the 'Source Self'. This alignment will ensure the free flow of energy from the Divine Matrix into your bodies and electrical system, which will have the effect of fine tuning your operating systems.

New programs of light will also need to be

Quantum Entanglement Theory, 'A Handbook for The Gateway'

downloaded. This will be achieved more easily when you have full interface capability with your Higher Self Monad. Molecular changes will then be facilitated within the Cellular Matrix. These will be responsible for renewing, repairing and regenerating your body temples. Many intricate processes are involved in this procedure, stemming from the subatomic level of Creation.

The very nature of your cells is 'Light'. The density you see is but an illusion that allows you to engage in third dimensional life. Your matrix of light will continue to be changed and updated by new programs, as and when they become available, and as they become necessary. Remarkable changes are occurring now, to support you and take you forwards into a new wonderful era of Peace and Harmony.

Your vibrational alignments are mismatched with higher density. They serve to create a complex matrix of energy forms which hide the light of the Creator, trapping you in a web of lower resonance. Much work needs to be done to free you from this web of deceit. Realignment processes will need to be instigated as soon as possible, to change this state of affairs for you.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Many of you are now aware of these facts and sense the dawning of this new era. Your sensibilities have become more refined, allowing you to hone in on the subtle frequencies. The attainment of a higher dimensional matrix is available to you. This will supersede and superimpose the lower vibrational model currently in existence.

Misaligned thoughts will be redirected into new channels of life, which will re-energize and reinvigorate you. Transformations will occur easily in this state of realignment. As you enter the flow of new energy, you will no longer be swimming upstream against the current, as you are presently doing. You will flow with the energy in a state of allowance, instead of a state of resistance. This will unfold a much easier life for you all.

Super manifestations will become normal in alignment with the new abilities that you will gain. Your inner treasure trove will open itself to you, giving you many gifts that can be used for the benefit of yourselves and humanity. The 'Serpent Fire' will rise once more, activating your energy centres. These centres are linked with specific gifts. They operate as portals of light connecting you with higher dimensional frequencies. The opening of these portals will create a shift in consciousness. It is this new consciousness that will take you to unprecedented levels of Being, and riches beyond the imagination.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

The renewal of your energy matrix, will affect your consciousness field, shifting you from mortal to immortal. Though your Being resides in lower fields of density, it is simultaneously connected with higher density forms. These forms are not yet in expression within your reality.

The changes in your energy matrix will provide a platform for growth that will expand your consciousness, resulting in an alignment with the higher principles of life.

Much information will be stored within your new matrix, that will allow even further expansions to take place. In time nothing shall be impossible for you. Great things are only possible when you align with 'Source'. These alignments are frequency matches with the higher octaves of light, resulting in a personal and collective transformation.

Energy modules are provided for you by the stargate systems, the 'Gateway Systems' of Light. These tools are operating for your highest good. Moreover they are portals in themselves, that open new windows of opportunity for you. Windows onto the sub-planes of life, where many possibilities exist for your advancement as a species.

The codons that are necessary for this connection, are provided by the 'Gateway Systems'. They will link

Quantum Entanglement Theory, 'A Handbook for The Gateway'

up your energy lattice to form new templates for growth. Much can be achieved through this energy work, a shifting from the natural to the supernatural plane.

The Phi ratio contains the Divine sequences of Golden Light. It is the principle of Oneness and absolute Harmony within all life.

To access this divine principle within your energy matrix, you must become an energy match to it. You must align your vibrational fields with the 'Golden Mean', which exists as an undercurrent to life. This Golden Mean, is the energy of 'Source'. It is 'Source' Light, vibrating at it's optimum frequency.

This alignment will require the introduction of new codes into your cellular matrix, that will activate the divine frequencies of light. This will then shift your matrix to a new resonance, that of the Golden Mean. When you are in harmony with the 'Lifestream', all the powers of the Universe are at your command. Your intentions will manifest easily and quickly, since there is no resistance within you. You are literally 'in the flow', cooperating with the divine energies of 'Source'. This dynamic energy is completely at your disposal, elevating you to your Creator Being status.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

The Founders created you as an original Creator Race, along with other Creator Beings. Your heritage is divine and noble, and was recognized as such by those who sought to keep you from your destiny, enslaved by illusion and misinformation. This is your dark Past. We use the word Past advisedly, since this timeline is now evaporating. A new timeline of 'Light' is emerging for you all, that will see you returned to your original Creator status, taking your place once more amongst the hierarchy.

The misinformation program, has largely been successful in keeping you focused away from the true state of affairs which exist upon your world. This program is now being deleted from your consciousness. It has run its course, and is giving way to the new programs of light, which will resurrect your consciousness.

Many programs are available to you, to transmute your lower density bodies into higher density ones. The keys to these programs will be given to you by those who are already activated by the energy fields of light. Once you receive the key-codes, you will in turn be able to transmit the energy to others.

This will spread from continent to continent, leaving

Quantum Entanglement Theory, 'A Handbook for The Gateway'

no stone unturned in it's wake, like the Divine Fire which transmutes and purges every living thing. Your mastery is dependent upon this energy reaching all four corners of the world.

Even those who do not consciously use the energy, shall become unconscious transmitters and divine agents unknowingly. This is a blessing in itself, culminating in worldwide change. The sooner you return to your former level of empowerment, the better it will be for you.

The high density vehicles are your saviours. Their resonance is encapsulated within the Diamond Sun, containing the original blueprint for human life, given to you by the Oraphim, the angelic humans. This was established long ago, and will make a resurgence in the coming times.

The knowledge of DNA and Merkabah mechanics, will return you to empowerment. It has been with you in distorted formats through the sacred texts, which have unfortunately been altered by those with a selfish agenda. Because of this, you have only glimpsed a small part of this knowledge to date. This travesty will be rectified, and this age old drama shall come to a close. New treaties will be ratified between the Star Nations, and your inclusion will be complete.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

The promotion of the "Gateway Systems", will help all living beings, since many are unaware and are still sleeping. These systems will help to wake them up, as well as serving to modify their DNA to the new triple strand helix which is being brought online for you all.

The interstellar nature of your matrix resonates with high frequencies of light, which can only be obtained by an alteration in your vibration. This is achieved easily through the DNA modifications which are available to you from the use of these systems.

Widespread changes are imminent upon your world, as it makes the transition to fifth dimensional reality. You can choose to align with this transitioning process, or you can choose to remain at your current vibratory level. This is a matter for each soul to decide. You can no longer sit on the fence, hoping these changes will go away and that your lives will settle back down again, into their usual rhythms. This will not happen.

Everything you have known thus far, shall be swept away as the new cycles of life begin to 'kick in'. Resistance is futile, and will not serve your highest good. We do not wish to give you harsh words here or be alarmists, only to stir those of you who sleep, out of this slumber and into action. The changes will not wait for you to be ready, they are already underway. Will you make a conscious effort to align with these changes, or will you stay stuck in the quagmire of limited beliefs and limited functionality?

Restrictions are there to act as a catalyst for growth, and to serve your highest purpose in your current dimension. This is not so when you arrive at 5D

Quantum Entanglement Theory, 'A Handbook for The Gateway'

reality, where the flow of change is natural and organic. Nothing is laboured or forced here. Lift your sights dear ones, to behold the new wonderful reality that is coming.

There are generations upon generations who serve the cause of lightbody refinement. These are the Guardian Races, who diligently work to promote change within the Galaxies.

Those of you who are activators, will generally belong to the Guardian Races and Time Keepers. Your duty will be to guard the ancient secret technology of light, and to release it at the right time to awakening species. This is why you came to Earth at this time in her history.

You have each developed different skill sets on other worlds and in other dimensions, which will aid you here. Trust your Soul to guide you in the unfolding of these abilities, using if necessary the Gateway energy upon yourselves. You can request the receiving of this energy at any time from us, or conversely you can work as a team, and send the energy to each other, whichever works best for you.

As you already know, the energy will assess what needs to be changed in your energy field, and will

Quantum Entanglement Theory, 'A Handbook for The Gateway'

then make the necessary alterations for you. The unlocking of your potential and your skill sets, will be triggered by the energy.

This you will find, is yet another function of the Gateway, to awaken the dormant potential of all life, which includes you. Do not omit yourselves from this process.

We are all powerfully linked with each other and form a chain of energy that makes us inseparable. We value your input greatly, as Creator Beings with a divinely chosen destiny. Do not underrate yourselves, or underestimate your ability to bring change to your beloved Earth!

Many previous incarnations have resulted in a wide range of abilities for you all. You have acquired many different talents upon your journey.

We wish you to use your experience to help the fledgling human race to secure it's footing upon the spiritual ladder. The remembrance of the ancient knowledge will return to you, especially with the increasingly higher frequencies of light that are entering your atmosphere. You are all waking up to new potential to transform yourselves and your world for the better.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

There is a grand alliance, called the 'Guardian Alliance', to which you, as activators belong. It is comprised of many advanced souls like yourselves, who are keepers of 'Gnosis'. Some have incarnated into the 'Essenes' and have advanced the cause of 'Gnosticism'. Others were on the Earth at the beginning of the Great Wars, to shed light on the darkness that was enveloping the people. You contributed to a great movement in consciousness that occurred at the end of the nineteenth century. You became philosophers and teachers, producing works of literature which inspired the masses to return to the light. This was the legacy that you left behind when you returned to the Stars. Unfortunately this awakening, this resurgence of consciousness, was suppressed by the mighty weight of the dark ones, who were firmly in control at that time.

You have returned to continue what you started. This time the auspices are favorable, the resistance to your light is diminishing daily. You have gained a firm foothold now, and have anchored the light upon the planet. Your success is assured, each making their own contribution, in their own unique way. Such is the Power of the Light at this time.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Your interstellar matrix is encoded to bring great light to all spheres and all worlds which you inhabit. You carry this beacon of light within you. You have carried this into the darkest of places, transmuting the darkness and restoring the light.

Many have been born into dysfunctional families in order to transmute their energies. This was your initial mission, to erase the negative Karma of these families, to help them become part of the larger 'Family of Light' in awareness.

You form a global network of interconnecting lines of light, which create a grid system. This is the grid system of the 'Avatar', one who has ascended beyond the earthly plane of existence. As divine activators, you carry the Avatar gene within your DNA, having successfully made your ascension long before this lifetime. You have incarnated to oversee the planetary ascension, and to bring in the long awaited harvest from the seeds which you have sown during other lives.

This network will increase, as more of you awaken to your roles and submit to the Gateway Programs. The effectiveness of the programs, will determine the growth of many races, and advance the light quotient substantially.

We urge you to consider the 'Whole', the bigger picture that is unfolding before your very eyes. To see beneath the surface, the true firmament of Heaven. Great things will then be accomplished.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

By Divine ordinance you have been commissioned. Through Love you have been fashioned out of the Creators life, for joy and great blessings. These shall be bestowed upon you by the Gateway Systems' advanced programming.

Your telepathic abilities will return to you as you work with these energies. The ability to bilocate will be resumed, and will be used to enhance your lives further. The many changes taking place in your energy fields, will restore your original blueprint matrix, deleting the Anunnaki programming that was given to you at the end of the Atlantean Era. A new Era is beginning, that will be unlike any other in the history of Mankind.

Our mainframe databases are continually upgraded, to ensure that you receive the most up to date technology of light, as you continue along this path. We are always on hand to help you, with our Love, Support and Wisdom, at this crucial stage of your development.

New beginnings have been created, and new pathways established, that will bring the full light of 'Source' to you all. Blessed are you Dear Activators of the Light.

Quantum Entanglement Theory, 'A Handbook for The Gateway'

Your Divine Matrix is summoned into being by your Higher Self Monad. New programs of light are brought into action, that will create the necessary alignment with this matrix.

You are all moving rapidly towards this point in your evolution, when time as you know it, ceases to be. The culmination of many life experiences have moved you to this point, offering great wisdom along the way.

This phase of the journey is almost at an end. Great changes are only accomplished when the time is right. Such a time is NOW upon you.

Please use the code below daily to align yourselves with the 'Gateway Matrix of Light'. It contains a special energetic for long life and wellbeing, which will enable you to fulfil your contracts.

It has a 12th ray frequency of extra dimensional light, helping you to vibrate at this level.

Please place this upon your Solar Plexus Centre (vortex) to accelerate and to absorb more light.

Quantum Entanglement Theory, 'A Handbook for The Gateway'
