## PREFACE

I am a channel for the Ultimate Light, Stargate Keeper, and Guardian of the Universes.

This is my 21st book. The first three a trilogy in Consciousness, the “Book Of Life”, “Life Essence”, and “The One”, are designed to move us into higher levels of consciousness, using the sacred Ancient energy technology of Light, based upon Fibonacci sequencing.

My fourth book “Communications from the Stars” is a series of channellings from Lightbeings, Galactic Councils, Collective Consciousnesses, and Archangels. There are messages from Yeshua, The Yeshua Collective, Salusa, Archangel Michael and many more. They offer their help, and support at this amazing time of transition in our lives.

My fifth book “Diamond Lightbody”, gives us technical information about energy fields and the lightbody processes that lead to Diamond Light Consciousness. Included in this book are the Diamond Light Key Codes that when used, will activate this Consciousness within us, returning us to our Immortal state of Being.

My sixth book “Atlantis Aurora”, tells us about the changes that will take us into the Golden Age once more, and how we can reinstate this wonderful high vibrational reality, through the Quantum triggers contained within the words, and the Immortality Codes, that were used in the healing temples of Atlantis.

The seventh book is from Max the 13<sup>th</sup> Ancient crystal skull. The skulls act as living libraries, multidimensional portals, giving us the codes for our evolution, and the crystalline body transition. This book contains the codes which unlock All Realities, returning them to fluidity in order to be reformed to our liking. Connect with Max through the vibration of this book to change your Destiny !

“The Hyperborean Portal” is a channelling from Agartha, our hollow Earth brothers and sisters. It tells us about our connection with them, and how they will resurface to help us to establish Peace and Harmony upon our world. It contains the entry code to the Portal, and the new 5D reality.

“The Infinite Universe” has been given to us by Archangel Ariel. It describes the nature of Universal and multidimensional realities and the species which inhabit them. It explains our role and our subsequent and inevitable shift to the new 5D reality and how this will be achieved.

“Quantum Entanglement Theory-A Handbook For The Gateway”, tells us about the “Gateway Systems”, their purpose, and those who are working to role out these systems. They contain the 'DNA Reverse Program', designed to delete the Anunnaki programs, and genetic modifications which were given to us at the end of the Atlantean Period. This book invites you to get involved in returning us all to a state of Empowerment.

“The Universal I” from Metatron, gives his wisdom on the nature of the 'Self' and it's innate light, the

unveiling of the Soul, the Merkabah fields, and our Soul mission and destiny as beings of light. Our inevitable rise to the higher echelons as more of our 'Self' is revealed. Contained within is Metatron's Advanced Program of Light.

“Crystals - Their role in Our Ascension” is channelled from the crystal consciousness of Antares. It gives detailed information about the crystals that have come here specifically to help us, with our Ascension process, listing those which have not yet been found. Included are techniques that will help to crystallize our energy matrix.

“The Ancient Crystals”, is a channelling from the Highest Light Consciousness to date. They contain a powerful energy matrix that is able to shift our reality and alter the course of our history forever. Connect with their amazing frequency **now**, if you wish to experience the greatest quantum change and growth possible, the STARLIGHT UPGRADE!

“Spirit As You”, gives detailed information about our inner Divine nature, our Lightbody changes, and our path to Greatness. This book contains an inbuilt frequency key which gives access to the Akashic Records, as it is time for All to be revealed!

“Star Crystals in Service”, is a channelling from many Star Crystals, who are connecting with us at this time to help us with the quantum shifts that are an inevitable part of our growth. They are introducing new programs of light, that are designed to activate our lightbodies. Connect with them now, to shift to the Spiritual Plane of Being, and higher realities.

“Inner Transformation” details our spiritual journey, and current entrance into the Golden Era. It contains energetic codes and triggers that will shift our energies, and expedite this wonderful transformation.

“The New You”, is a mini book detailing ancient systems of light that can be used to help us with our Awakening, and Empowerment. These are the esoteric teachings of long ago that are relevant now, as we face a huge shift in our reality.

“The Journey to Consciousness”, comes from a skull of Light, 'Diamond +', so called because he has a matrix which includes Gold and Silver. He is a powerful being of Light who, along with the other skulls, are helping us to advance to higher light octaves. As you read this book, his energy will integrate into your energy matrix, lifting it to new vibrational frequencies.

“Holding The Light”, is my next book. It tells us about our Divine Essence, and what constitutes Life and comprises our energy matrix, so that we can take steps to shift our vibration to the faster, higher frequencies of light consciousness.

“Unification & Healing” comes to us from the Annu. It sets out our journey and destination as spiritual beings of light. Giving us insights into our experiences through our vehicles of density, and ultimate transition to Light.

“The Gateway to Ascension” has been given to us by the Elders, or Ancient Ones. This book opens

new portals of light for us, and assists in our lightbody processes, both in the integration of lightbody codes, and their activation.

I like to stay at the forefront of Spiritual change and am dedicated to bringing you the most advanced spiritual technology, from the Higher Self Aspects. Bless you All !

## ***Opening the Inner Gateway***

The Gateway protocols have been changing. This is an adjustment that needs to be made for the whole of humanity. Progressions are being made into the Higher Light fields, as we speak. More information is being released upon your world, through the introduction of light packets. These packets hold a certain level of vibration, which corresponds with the light data that is held within them. This light data acts as a catalyst for change, by unlocking parts of your bioenergetic field, the field that has been produced at the quantum level. This field responds to changes within your electromagnetic field, otherwise known as your auric field.

Substantial growth is needed for your expansion in consciousness and light. This growth is being given by the downloading of quantum codes. These codes are unique in nature, they are structured according to your different lightbody metrics. The metric calibrations are responsible for rearranging your cellular data, in alignment with your Merkabah expressions, at different levels of being.

You are transcending your current Merkabah vehicle, in order to partake of the higher light frequencies. The benefits of this change are enormous. Such transitions require significant additional information to be added, to the existing genetic material, that is held within your DNA matrix. It is literally an infusion of light, transmitted directly into your cells energetically, by the codes. The inclusion of this light, creates

## The Gateway to Ascension

the beginning of a phenomenal transformation, from human to God Man, within you. Your accelerated matrix, will then draw in more light, putting you in a state of resonance with your divinity.

### ***Interfacing with your Higher Self Expressions***

Your vehicles of light are interfacing with different dimensional realities. They take their nature from the etheric web of these dimensions, the etheric material that each is comprised of. Thus each in turn, has a different frequency modulation. The modulations of the higher spheres hold more light, due to their pristine nature of form. Their quantum accelerator works at a different ratio of cycles per second, or hertz, than that of the lower sphere modulations. Quantum acceleration is created by light photons of a certain frequency.

There is a significant output of these photons at present. Many are infiltrating your energy systems directly, from the solar, galactic waves that are washing over you. This year of 2018, will see many such waves, and an increase in intensity of the light as a result. Preparation needs to be made to your energy matrices, if you are to benefit fully from these energetics. New wine cannot be poured into old skins. The vessel will not cope with this high octane influx, unaided.

This is why we are bringing you the higher light technology of 'The Gateway'. The superior encoding of The Gateway, will assist each and everyone of you, to reach your full potential, as

## The Gateway to Ascension

agreed with your Higher Self. All Aspects need to be brought into alignment, in the best way possible for each of you, and in timely fashion, so that all who wish to ascend, will benefit, and reap the rewards of these changes.

### ***The End of the Old Matrix***

The system lords of long ago, are responsible for your current matrix. The matrix field was intentionally created as a tool for growth, albeit a rather slow one. Frequency bands were put in place to limit your expansion. This would effectively prevent your empowerment, until such a time as you were able to cope with this responsibility. These restrictions are now being removed, to allow you to step into your own power, and once again return to your galactic status.

The inheritance of the Past, will need to be shed, so it is not allowed to encroach upon the present. This will be achieved by an entire overhauling of your individual matrix. By the rewriting of your DNA codes, to introduce new galactic information into them. This will create a new 'Star Matrix', that has energetic links to all of your galactic aspects, which are expressing themselves in other star systems, galaxies and other realities.

The broad spectrum of this work, will be covered by the gateway encoding, from the databases of the different star systems. This advanced technology of light, is already with you. It is currently being given out by the Gateway Activators, who have been empowered to

## The Gateway to Ascension

transmit these codes, for the benefit of humanity. The old matrix will be written out entirely, as you are aligned with the new 'Star Matrix'. The Past will be erased, as a new era of light is born within you.

### ***Interdimensional Sequencing***

Your different timelines exist simultaneously within the hologram, though each appears to be separate. This illusion again, has been created for the purpose of growth. The linear timeline, provides you with contrast. Contrast creates choice. Your choices free up your usable energy, so that you are always in dynamic mode. Your energy is always increasing, with every decision made. This prevents stagnation and stasis. New heights are reached continually, and expansion is enabled.

The cycle continues, and new ground is breached. Former boundaries and limits are broken. The bar is raised, and the standard improved. New thresholds are reached in this way, and more light is added to your individual matrix.

This model has served you well, and helped to release your inner potential. The successes have been huge, and have given birth to new templates of form. These templates have attracted the light particles or photons, that have altered the format of your being substantially. It is through this ever changing energy sequencing, that you are evolving, and releasing and expressing, more of your higher dimensional

# The Gateway to Ascension

nature.

## ***Renewal and Regeneration***

The Life Force within you is strong. This same force powers the Sun and the Universes, shedding light upon you all. Everything responds to this light. Light triggers growth, healing and regeneration. The greater the light, the more dynamic the response will be.

Healing codes are held within the light. They give instructions to your cells, to release more of their innate light. Density cannot exist where there is light. Cells purge themselves in this way, releasing toxins and lower vibrational matter. Renewal is the consequence of this energetic. The electrical components of the cell are recharged, giving life and vigour to that which was deteriorating. The influx of life force, restores that which was decaying, and regeneration occurs. Each cellular battery reaches its optimum output, and the whole system is fired up and working in synchronization. All parts working together as one whole module.

Regeneration can be a slow affair upon your timeline, with vibrations at their current levels. However this is set to change, with the introduction of the *Gateway* technology. Rapid advances forwards will be made, from this point onward, as this light infusion triggers what you need. Ultimately a critical mass will occur, which will tip the balance, causing the light codes to spread from person to person, healing and

## The Gateway to Ascension

upgrading them automatically, without third party intervention. The light will then return to your world once again.

### ***The Dynamics of Flow***

Each and every cell is connected by the etheric web. Nuances exist within the cells, and each is a repository for the Divine Light of 'Source'. Variations exist however, within the cellular structures. Each has a different light quotient, which corresponds with the codes of Infinity. Light bearing diodes, increase the cells ability to absorb light. These diodes are activated by the gateway energies, as they are provided to the cells parallel counterpart. Quantum entanglement ensures the success of the activations taking place. New energy is then infilled, for the cells to process and digest. This is the food of light, being absorbed by every cell, leading to changes within its growth patterns. Structural changes are created this way, to improve the overall matrix, so that each cell vibrates in harmony and in unison with each other, removing all discordant energy and toxicity. The Divine harmonics are then restored, and the body becomes an instrument of the light.

Your light carries far, well beyond the dimensional fields. There are many beings that exist in these realms, beyond the causality of dimensional life. As you begin to light up your internal beacon, you will become visible to these beings, and will be able to interact with them. They too are here to assist you, in taking your next evolutionary step. We are all in truth family.

# The Gateway to Ascension

## ***The Higher Light Modules***

We have developed modules of light for your assistance. These modules are endowed with cellular recalibration codes, that activate the higher light frequencies. They are contained within packets of information, or data, which needs to be processed by the vehicle, before it can transition to the light realms. Your lightbodies are made up of this data, which is given to you periodically, to elicit an upgrade, within the dimensional fields. Light resonance must be achieved at each level, before the Merkabah can be successfully launched. Many activations will be needed, during this upgrading process. Some will require more than others, to effect the necessary changes to their vehicles.

The *Gateway* activations, contain quantum accelerated energy. This will speed up the whole process for you all, cutting down the time needed to absorb and assimilate these changes. It is the quickest method by far, to ensure that you reach the crystalline lightbody level.

There are many modalities on Earth at present, that have been given to assist you all. They have been given lovingly, for the good of humanity. However, non are up to speed with the highest light frequencies that are now available to you. The '*Gateway Systems*' are the only modality, that will keep you at the leading edge of spiritual and evolutionary change. No other platform contains the codes that are self-updating, though they have their place in your cycle of growth. We hope you will take this information to heart, and

# The Gateway to Ascension

act accordingly.

## ***The Principles of Cellular Transformation***

Your energy fields are charged with particles of light. They are the engine of change, and provide the dynamics for transformation. As more light is absorbed into your energy fields, the vibration of each cell alters, in line with this introduction. As each cellular battery conducts a higher charge, or higher voltage, all cells must respond to the increased influx of energy. Thus the whole vehicle takes in more light.

Cellular degradation occurs, through a sluggish energy current, that is inhibited from flowing correctly. This is often due to a build up of toxins, and unprocessed waste within the cell. Measures must be taken to expunge the cells of this waste material, in order that they can function normally, in accordance with their divine design. The easiest way to accomplish this, is by utilizing the parallel counterpart of the cells. All cells have a parallel, which exists in a different hyperspace reality. Due to the phenomenon of quantum entanglement, these cells are inextricably linked with your physically manifested ones. To create changes for the benefit of harmony within the cells, all that is required is the introduction of the *Gateway* energy, into the parallel cells. This creates an energetic link that will result in the purging of the cells, assisting them back to a state of healthy functioning. If you wish to return your vehicles to pristine condition, do not overlook the power of the '*Gateway*'.

# The Gateway to Ascension

## ***The Embodiment of Light***

Your vehicles of expression are in truth vehicles of light. All is light, existing at different octaves. Cellular transformation occurs, when the light increases, forcing change upon the cells. All cells are multidimensional, having embodiment upon all planes of existence. These dimensional cells are affected by the intensity of the light, and reproduce and change in response to this light.

The dimensional fields are imbued with a special light frequency, that is calibrated for change. In this way the parameters for growth can be exceeded and new levels reached within the lightbody. Changes of a greater magnitude will ensue, taking you to new heights of expression.

Regardless of the level of expansion, there is always room for more growth. Unlimited potential exists, within each dimensional sphere. Agreements are made for the raising of the threshold, by your Higher Self Monad, in keeping with the collective decision for change.

You have reached a collective hiatus, and must now move into the next lightbody expression, the one you call 5D or fifth density. New experiences await you at this level, ones that will propel you further along your journey. To the outer reaches of galactic expression, and beyond, and into your Solar vehicle.

## ***Raising your Consciousness***

The fields of thought, are governed by the matrix

## The Gateway to Ascension

programs. Programs that were set in place to create restriction. Now that the dimensional walls are thinning, new thought forms are becoming readily available to you. These non-linear thoughts, will often arrive spontaneously, and will feel as if a sudden download has occurred. This is indeed true from one perspective. These thoughts can feel like intuitions, or guidance from the higher realms. They bring much light and wisdom, since they often arrive from other parts of you. Parts that have already broken through the frequency barrier, and are seeing life from a higher , more expanded perspective.

They may challenge you to step out of your current thought patterns and habits, and to adopt a new way of thinking entirely. Though this may seem unfamiliar to you, it should be embraced, and welcomed, as it will usher in a new era for you. Thinking outside of the box, will lead to wonderful changes, and great improvements, in your day to day living conditions. What was once thought to be an impossible dream, will now become a reality, due to these thought impulses of a higher nature. Consciousness expansion, is a consequence of holding thoughts of a higher vibrational nature, within your mind matrix. Thus the expansion of the Whole begins, often with a thought, a new seed.

### ***The Light of The Gateway***

The Gateway System programs, are being rolled out to humanity, on a large scale. The galactic encoding within the systems, provides an interface with higher dimensional realities of

## The Gateway to Ascension

form. We who reside in these ethers, understand more about the true nature of life, and as such are able to assist you to rise higher. We know the pitfalls that you have faced, and have silently watched your progress thus far. You are to be commended in your achievements to date. Your processing of the energies has been a challenge for many of you. You have done well to reach this point on your timeline, relatively unscathed.

Now is the time for great advancements, using the light technology that is being given. Countless souls have used the benefits of the *Gateway Systems*, in order to ascend their path, and increase their light. Each system is an entire unit in itself, containing the codes of each galaxy within them. The codes are structured to bring huge changes en masse. Changes that will redirect the course of your history, as a species, pertaining to the development of your highest light expression, both individually, through the *Diamond Matrix*, and collectively, through the *Solar Matrix*. Your light fields will be triggered by the codes, into producing greater luminescence.

Genetic modifications will be made, as part of this program. The DNA from these Star Systems, is considerably more advanced, than your own. Adaptations will need to be made, and changes carried out, to ensure that you resonate fully with these higher light frequencies. Once you are an energy match, your move into lightbody will be effortless. This is what we wish for you, a speedy and effortless transition, in light of your past struggles, and determination to continue on this path regardless.

# The Gateway to Ascension

## *The Bringers of Light*

Light emitting diodes are held within the gateway energies. These are programmed to release more of your innate light, your essential Source frequency. Attunements are being given, to align you with your galactic counterparts, thus helping you to merge with your Higher Dimensional Selves. These Selves, radiate considerably more light, and are the key to your successful return to Oneness.

As the dimensional walls thin, and bleed through occurs, many vistas will open to you. These new perspectives will be game changers. You will view your lives in a totally different light. We can't stress enough, the importance of the shifting of your perspective, and focus. For where you are focused in energy, that will be your realization, your manifestation of reality. It is just a hair's breath away from where you are focused now, so thin is the membrane between you.

The door is opening wide, to allow you entrance to your innermost chamber, the sanctified place within. It is here that God meets God, and the wonders of life truly begin. These manifestations await you, in the silence of your Soul. The journey begins anew, as your remembrance shines through. Shedding light upon the path ahead, revealing your next steps to you. The Gateway energies, will provide everything you need for this Awakening. Avail yourselves of these bringers of light, for a speedy progression.

# The Gateway to Ascension

## ***The Grand Plan***

The deities of light have preconceived a plan of unfoldment for you. This plan will generate the changes that are needed, to create the maximum light possible, within each individual matrix. Your potentials far exceed your awareness, presently.

As you shift by degree, into the faster frequencies, more opportunities will become available to you. More openings will be made for you, as doors to the greater kingdom open. There will be an expansion of unprecedented proportion, as you yield to these new frequencies. Elevations to heights of Consciousness will be seen, representing the return of the full crystalline embodiment. Your garments of flesh will be retuned to comply with the crystalline vibration.

This is only the beginning of this journey. There are many more experiences to be had, though the challenges will start to fall away, as you leave behind the heavy density, and begin to live and breathe the finer, purer air of Spirit. The impossible, shall become possible, as your matrix expands to include the geometries of your higher light vehicles, creating your new expressions of form, from the ethers. The radiance of 'Source' will shine through you, without the resistance of density to mask it. This will be a major turning point for all. Your higher light modules, will become the catalyst for even greater change, as the energy dynamics shift within you, affording you the opportunity for more growth. The eternal spiral of evolution, continues.

# The Gateway to Ascension

## ***The Vibrations of Light***

Higher light energies exist at different vibrational resonance. Once you have acclimated to one frequency, the ground work is prepared, for your elevation to the next one, albeit in linear terms that is. In truth, the crystalline vibration, holds many frequencies within it, many diverse oscillations.

Having acquired resonance with the crystalline vibration, many doorways open up for you. These are portals to other realities, which hold the brilliant light of 'Source'. Your soul may choose to experience any number of these realities, in order to further its growth. No one vibration is more ideal than the other, except as it meets the requirements of your soul.

Each one is filled with different fractals of light, which hold the key to your changes. The key codes vary within the levels of density, to assist in the building of the appropriate templates of form. These will provide you with the vehicles to inhabit at each dimensional level.

Your Merkabah of Light is splendiferous to behold. Nothing can compare to its beauty and radiance, within the fields of light. The light is all encompassing, and reaches far, The windows of the Soul share many vistas of life. You cannot at present, begin to comprehend the implications of this. Only by direct experience and inner openings, shall you witness these things.

# The Gateway to Ascension

## ***The Portal of Grace***

This is a time for many advancements to be made. Protocols have been put into place, to ensure your success. One such protocol, is the 'Portal of Grace'. This is a gift that has been bestowed upon humanity, to correct its path. This course correction is a must, as many of you are not sufficiently aligned with the faster/higher vibrations of light, that will enable you to step into your crystalline lightbody.

This portal offers the opportunity for change. It is if you will, a dispensation, in a similar way as the violet flame, which was given to you some time ago now, to act as a catalyst for change upon your world. The portal is likewise a harbinger of radical movements or shifts, within your energy. It should be used sparingly at first, due to its high vibratory nature. Many of you will need to be grounded beforehand, to earth the very high frequency currents, that it holds. Any grounding method will be of help to you here.

You may request entrance to the portal, when you feel ready. As always, resistance is lower, late at night, or early in the morning, due to your REM cycles, and the relaxation of the guardian to the subconscious mind. So it is that a successful experience will be more likely to unfold, at these times.

The geometries of the portal will realign you, creating a change, by increment, each time you visit it. Until such a time as you are energetically aligned with your crystalline expression. This is a

## The Gateway to Ascension

blessing for you all. More light portals will be opening for you, at the behest of the Elohim. The vibrations of this book, will trigger these openings for you all. This time is upon you now.

### ***The Elohim Self***

Your most radiant Selves, are aligned with the highest vibrations of Love and Light that exist in Creation. Though you may be vibrating at a denser frequency now, there currently exists a part of you in the highest elevation of Spirit. This Self, is All Knowing and All Wise, and responds to the impulses of the Creator Mind. New plans are continually hatched, for success in the expansion of itself. Many changes have been wrought in this manner. Your Higher Mind knows of these works, and is familiar with the technology that is used.

You have commonality with your higher expressions, though you are vibrating at slower cycles of light. You have a golden link, which connects you to these Aspects. It is through this link, that you can glean information from the highest levels, and thus be aware of the changes, as they are unfolding within you.

Your light vehicles are synchronizing with each other. This is part of the merging process, the preliminary stages of it, as the Great Lightbody is being formed. Geometries have to be harmonized, and rendered compatible, before a successful merger can be accomplished. This requires many calibrations and energetic adjustments, over time. The light codes that are

## The Gateway to Ascension

being given to you in this book, will assist greatly in your Lightbody processes. The words will trigger the changes that are needed to complete the merger and subsequent activation, all for your greater good.

### ***Beyond the Imagination***

To some degree it can be said, that All is Mind, though the mental planes are the constructs of the Creator Self, for the purpose of expression. The Mind modality, is woven through the web, interlacing with the fractals of light, to form what you call matter. This matter, is but another manifestation of mind, albeit at the denser end of the frequency scale.

There are varying degrees of manifestation, from the finest to the densest. These comprise the dimensional layers of life, which serve the purpose of the Soul. Its incarnation journey through these dimensions or veils, lends to its expansion and growth, and forms a necessary part of its evolution.

The journey to greatness, is a long road, with much travail and unrest. The rays of light from the Divine Mind, touch upon the Soul, slowly awakening it from the dream state. The reveille begins to shorten, as it makes its journey back home, from whence it came.

Increasing cycles of light, will steer the soul forwards on its path, revealing more of its divine nature in the process. Such an unveiling of the light, cannot be fathomed from the denser levels.

## The Gateway to Ascension

It is only transparent as the soul sheds its burdens, and releases its hold upon density, thus entering the upward spiral towards its Source. Unimaginable vistas await the soul, as it approaches closer to its Essence, reclaiming its magnificence within the Eternal Light.

### ***Your Heavenly Garments***

The structure and form of your vehicles, depends largely upon the mechanics of time and space, and how they operate through you. You are an instrument of the Light, holding the vibration of density. This is the path of your choosing, to assist you in connecting with your higher expressions.

The light has been dim, and at times, hardly a flicker of it fell upon you. This did not deter your Spirit, which is strong. It has been forged in the cauldron of density, and birthed from the fire of light, to what it is today.

Your heavenly matrix has been barely visible to you, and has always been somewhat out of reach. As your elevations continue, more of this matrix will come into view. More of your higher light vehicles will become visible, and express themselves through you. The ramifications of this will be great. The Heavenly Bodies of 'Source', will reconnect with you, creating an expansive field of energy and light, the dynamics of which, will alter the course of your progression. Great growth shall be the consequence of this energetic, a great illumination for all. The priceless jewel of the Heart will shine forth,

# The Gateway to Ascension

shedding its rays of warmth upon you.

## ***Inner Governance***

Your societies are structured around governments, in order to rule and enslave you. Control is the key word, that which keeps you held down and suppressed. The tools of suppression, have been largely money and religion. Money is used as power, the power to build nations, which will be governed by the controlling elite, the masters of the reptilian bloodlines. These nations are self-serving, and have but one aim, that of self-gratification.

Your story line is different to theirs, though it has run parallel to it for eons. The timelines are now separating, and you are beginning anew. Self-controlling mechanisms will be brought into play. These will affect the major areas first, such as finance, since money sits at the top of the pyramid of control. The organizations that have supplied you with money, will be forced to change their ways, or disappear into obscurity.

A new banking platform will be built, which will be beyond the reach of any controlling body. In fact it has already been birthed, through your emerging digital technologies. Self-governance will become possible, when you are free from the money matrix altogether. External forces will still try to obstruct these new ways of being, but this will only be a temporary affair.

The new technologies will win through regardless. The energy of this age does not

## The Gateway to Ascension

support arrogance and selfishness, and these will cease to be a factor in your lives from now onward. The energy of change, is moving in your favour at last.

Increasing cycles of light will illuminate your innermost self, showing you the way forwards. The evidence of change will start to appear outwardly, as a grand reshuffle takes place.

### ***The Light Before the Dawn***

Bio-engineering has created a fusion of many different aspects of your light selves. It has allowed great diversity of form, which has served you well during your growth cycles. Complimentary mechanisms have been put into place, to fuel the changes that will be necessary for you to undergo, during your quantum leap to the faster frequencies.

Advanced systems of light have been given to you. To date these are the '*Atlantis Gateway Systems*', the '*Ketheric System*', the '*Blueprint Reset System*', the '*Kauna Light System*', the '*Plasma Light System*', and there will be more to follow. As your needs expand, more tools of assistance will be given, to help all to express their greatest light within embodiment. This is the Plan, the Divine Ordinance, that which separates man from beast, that which separates him from all lower forms of expression, and raises him up into glory, is being given.

The Divine Matrix will assist you all in becoming the creator beings that you already are within. Your light has been hidden from you for so long.

## The Gateway to Ascension

The return will be a joyous affair, one of great celebration. The darkest hours are over, and the Sun rises in the Heavens . Peace and Harmony shall return. The unveiling continues to bring the revelation of greatness, and a timely maturation. Great things are possible when the time is right. That time is Now!

### ***The Anubis Cycle***

The Anubis Cycle of light, is one of great growth. Many undercurrents are examined and experienced, by souls on their upward journey. The seed of light is within all. It only takes a spark to ignite the Divine Light within, to release it from its prison . It is held captive within the Heart of all beings, awaiting its freedom.

The light of Source is strong. It magnetizes all to its brilliance, and creates the environment which is necessary for growth, plunging you deeper into the fields of existence. There you will uncover much wisdom, that will serve you on your path. Much can be gained by the darker aspects of life. An eternity of wisdom awaits, from the path of liberation. Wisdom that can only be gleaned by delving into the darkness.

Your darkest hour can be your greatest triumph. At the flick of a switch, your energy can change, propelling you upwards, into new cycles of growth. These are the mechanics of the Anubis Cycle. They have been developed by you, and for your experience and ultimate expansion. Greater growth awaits you, now that you have traversed the ring pass not, and broken through

## The Gateway to Ascension

the frequency barrier. A new journey begins, and a greater light beckons.

### ***The Crystallization of Form***

The wonders of the Universe are held within you. You are but a reflection of all that is. Your energy system contains portals to the stars, which can be opened by you, to give you a connection with your star selves, in these realities. The crystallization of souls, allows many such connections to be made.

Prior to crystallization, you have been cut off and isolated from the greater world that exists. Held within limited frequencies, that have restricted your growth. The limitations set upon you, have perverted your matrix, creating one that is very insular in expression. One of recycling energy and ultimate stagnation.

The time for growth and expansion is here. The limits have been lifted from you. Doors are being opened to new perspectives, and other realities are coming into view. You are no longer in the goldfish bowl of the Earth Matrix. The wonders of the Universe await you, as you stretch your muscles and awaken.

Blind obedience to the laws will not serve you now. You are the law makers. Creation is your playground. The power is within you, to mold your life to your will. To create a magnificent destiny, and blaze a trail to the stars. The wandering is over, you have set your compass to the heavens, and are setting sail into greatness.

## ***The Miracle of Life***

The advanced consciousness matrix, holds many keys to your perfection. It is written in the stars, that your destiny will be a great one. Plans have been made, and charts drawn up, to steer you in the right direction, lest you go astray, and fail to complete your journey.

All is in hand. Mighty forces are being deployed, in alignment with this plan, to ensure a successful completion. The mysteries of life are revealing themselves to you, little by little, as you open yourselves to them. The Firmament and the Heavens support you, with their bountiful wisdom and light.

The stages of growth are slow at first, until a critical mass is reached. Then your growth is exponential, as you rocket to the heavens. The *Gateway Energy* is specifically designed for this purpose, to reach saturation and then critical mass point. At this stage, the whole of humanity will be tipped into the crystalline light.

Since you have chosen to collectively ascend your matrix, this is the most expedient tool for the job. It cannot be stressed enough, how important this is. You have reached this stage previously, but have been thwarted by denser energies and agendas that are not in alignment with your highest good. Do not make this mistake again. Do not fall prey to the darkness. Stay focused upon your goal, and success will be yours for the taking. The dynamics of life are currently in your favour, in this ascending cycle. This is an
